ALL PURPOSE CLEANER

QUINTAB CLEAN

Art.-Nr. 90.000.201 160x10g

- An innovative highly concentrated premium cleaning product
- Easy and certain dosing, a dosing system is not required
- Ideal for the wet and moist mopping of coated and uncoated floorings
- Very good separating behaviour in waste water
- Excellently suitable for use in automatic cleaning units
- No contact between the skin and the tab as far as possible
- Less packaging waste.

APPLICATION RANGE:

Quintab Clean is an ultra-wetting highly active maintenance cleaner for strongly water-repellent elastic floorings. It cleans without residues and streak-free. It optimises the maintenance cleaning in 1 and 2-stage mopping processes. Suitable for use in automatic cleaning units. It has been especially developed for the cleaning of floorings that have been PU-annealed ex works. Removes the most diverse forms of soiling during the daily maintenance cleaning, e.g. oils and grease in addition to lime residue.

INSTRUCTIONS FOR USE AND DOSAGE:

Place the Quintab Clean in its water-soluble foil in a bucket/automatic cleaning unit and fill up with water. (Caution: do not tear the foil open). The cleaning solution is ready for use after approx. 5 minutes. The tab is suitable for use with 10 l of water. In the event of heavy soiling, spray over surface floor with machine. Store in a dry place!

A correct dosage saves costs and protects the environment.

Keep out of the reach of children. Do not mix it with other cleaning agents. If improperly used, there will be no legal claims accepted. A safety datasheet is available for professional users upon request.

TECHNICAL DATA:

Form: a blue tab in a water-soluble foil
 Odour: pleasantly fresh
 pH-value of the 1% solution: approx. 9

INGREDIENTS:

5-15%: non-ionic surfactants
 <5%: phosphonates
 contains: perfumes, BENZYL SALICYLATE
 LINALOOL
 Stability: min. 1 year in the original container
 The surfactants contained in this preparation comply with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents.

Better for the environment ...

- Lower load on aquatic ecosystems
- Less hazardous materials
- Its efficacy is tested

... better for you.

EU Ecolabel : DE/020/438

LABELLING

 Warning	Hazard Statements: H315: Causes skin irritation. H319: Causes serious eye irritation.
	Precautionary Statements: P264: Wash hands thoroughly after handling. P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337+313: If eye irritation persists: Get medical advice/attention.

TRANSPORT: Not dangerous goods in the sense of these transport regulations (ADR).
